Since the annual meeting in March the number of borrowers and books issued have continued to increase, except during August when the Librarian was granted a two weeks leave of absence, and the Library was closed. This leave of absence has been much appreciated.

On March 29th I was again able to get a young woman through the N.Y. A. for 5 hours a week to help in various ways - particularly in keeping the rooms and books clean. She was withdrawn for 2 weeks in June - but has been at work since. On Apr. 9th I was also sent a young man to help two evenings a week, and on Tues. afternoons. In July his time for working did not coincide with the time I most needed help, so I asked him to discontinue until Fall.
